# Flame eye shader

Thank you for downloading the asset. We hope it will be a nice addition to your game/project.

## Ignite Your Creations with Fiery Intensity

Unleash the power of the Flame Eye Shader, a stunning, high-quality shader designed to bring your characters and environments to life with mesmerising, animated flames. Perfect for game developers, digital artists, and 3D enthusiasts, this shader adds an otherworldly, intense glow to any eye model, making it ideal for fantasy, sci-fi, and horror projects.

You can also view this shader in any modern browser in WebGL - https://unity-visualab.s3.eu-west-1.amazonaws.com/FlameEyeShader/index.html

Google Chrome recommended hardware acceleration to get the best frame rate.

Quick setup

Simply choose from the shader menu on your material Visualab/FlameEye

For any questions, support contact tech@visualab.co.uk.

Hope you have a great day, Adam.
